Aims and Scope

Research and Practice in Thrombosis and Haemostasis (RPTH) is the newest journal of the International Society on Thrombosis and Haemostasis (ISTH) and the newest journal in the field of thrombosis and hemostasis. Complementing its flagship journal, the *Journal of Thrombosis and Haemostasis* (JTH), RPTH provides a dedicated Open Access home for science and discourse among researchers, clinicians, nurses, allied health professionals, and patients.

RPTH is a "living journal" and serves as a jumping point for digital discussion. It also reflects the current era of inter-disciplinary scientific discovery and new methods of knowledge dissemination and the wide reach of ISTH by featuring articles from all corners of the globe. RPTH provides rigorous, rapid peer review and immediate dissemination of research reports from basic, clinical, translational and population or public health science. The Journal is interested in quality, outcomes, dissemination and implementation science, seeking studies and trials on novel care delivery, including in areas of resource constraint around the world.

 Digital discussion is encouraged through our Twitter account @RPTHJournal and with hashtags #RPTH, #RPTHEditorial, #RPTHCommentary, #RPTHReview, #RPTHTutorial, #CoagCapsule

Open Access and Copyright

All articles published by *Research and Practice in Thrombosis and Haemostasis* are fully open access: immediately freely available to read, download, and share. All *Research and Practice in Thrombosis and Haemostasis* articles are published under the terms of the Creative Commons Attribution-NonCommercial-No Derivs license ("CC-BY-NC-ND"), which permits users to copy, distribute, and transmit an article as long as the author is attributed, the article is not used for commercial purposes, and the work is not modified or adapted in any way. An exception is made for Contributors funded by agencies requiring use of a Creative Commons Attribution license ("CC-BY") which permits others to use, distribute, reproduce, remix, tweak, and build upon the work in any medium (even commercially) as long as the Contribution is credited for the original creation. Such funders include the Research Councils UK, the Wellcome Trust and other funders recognized by the Publisher as requiring a CC-BY license, who may publish their Contributions under a CC-BY license.

Copyright on any research article published by *Research and Practice in Thrombosis and Haemostasis* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher.

Further information about open access license and copyright can be found at: <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright--License.html>.

Contact Details

Research and Practice in Thrombosis and Haemostasis is published by Wiley Periodicals, Inc., 101 Station Landing, Suite 300, Medford, MA 02155, USA.

Research and Practice in Thrombosis and Haemostasis

Volume 3 • Issue 3 • July 2019

Editorial

- 307 Advancing a new journal: *Research and Practice in Thrombosis and Haemostasis*
Mary Cushman

Commentaries

- 309 Migraine and venous thrombosis: Another important piece of the puzzle
Bob Siegerink and Kasper Adelborg
- 312 Studies in upper extremity deep vein thrombosis: Addressing the knowledge gaps
Alejandro Lazo-Langner

Review Articles

- 315 Pulmonary embolism response teams: Purpose, evidence for efficacy, and future research directions
Rachel Rosovsky, Ken Zhao, Akhilesh Sista, Belinda Rivera-Lebron, and Christopher Kabrhel
- 331 The contact pathway and sepsis
Vikram Raghunathan, Jevgenia Zilberman-Rudenko, Sven R. Olson, Florea Lupu, Owen J. T. McCarty, and Joseph J. Shatzel

Methodological Article

- 340 Apixaban for Routine Management of Upper Extremity Deep Venous Thrombosis (ARM-DVT): Methods of a prospective single-arm management study
Scott C. Woller, Scott M. Stevens, Stacy A. Johnson, Joseph R. Bledsoe, Brian Galovic, James F. Lloyd, Emily L. Wilson, Brent Armbruster, and R. Scott Evans

Original Articles: Thrombosis

- 349 Rivaroxaban treatment of cancer-associated venous thromboembolism: Memorial Sloan Kettering Cancer Center institutional experience
Gerald A. Soff, Jodi Mones, Cy Wilkins, Sean Devlin, Eva Haegler-Laube, Jonathan Wills, Debra M. Sarasohn, Krishna Juluru, Michael Singer, Yimei Miao, Jeanette Batista, and Simon Mantha
- 357 A prospective study of migraine history and venous thromboembolism in older adults
Aaron R. Folsom, Pamela L. Lutsey, Jeffrey R. Misialek, and Mary Cushman
- 364 Evaluation of the predictive value of the bleeding prediction score VTE-BLEED for recurrent venous thromboembolism
Frederikus A. Klok, Emilie Presles, Cecile Tromeur, Stefano Barco, Stavros V. Konstantinides, Olivier Sanchez, Gilles Pernod, Leela Raj, Philippe Robin, Pierre-Yves Le Roux, Clément Hoffman, Solen Mélaç, Laurent Bertoletti, Philippe Girard, Silvy Laporte, Patrick Mismetti, Guy Meyer, Christophe Leroyer, and Francis Couturaud, for the PADIS-PE Investigators
- 372 Venous thromboembolism in chronic pediatric heart disease is associated with substantial health care burden and expenditures
Gary M. Woods, Sheree L. Boulet, Karen Texter, Andrew R. Yates, and Bryce A. Kerlin
- 383 Protease-activated receptor-mediated platelet aggregation in acute coronary syndrome patients on potent P2Y₁₂ inhibitors
Patricia P. Wadowski, Joseph Pultar, Constantin Weikert, Beate Eichelberger, Benjamin Panzer, Kurt Huber, Irene M. Lang, Renate Koppensteiner, Simon Panzer, and Thomas Gremmel

Original Articles: Haemostasis

- 391 Fully automated thromboelastograph TEG 6s to measure anticoagulant effects of direct oral anticoagulants in healthy male volunteers
Ramin Artang, Maren Anderson, and Jorn D. Nielsen

- 397 Impact of prophylaxis on health-related quality of life of boys with hemophilia: An analysis of pooled data from 9 countries
Koyo Usuba, Victoria E. Price, Victor Blanchette, Audrey Abad, Carmen Altisent, Loretta Buchner-Daley, Jorge D. A. Carneiro, Brian M. Feldman, Kathelijne Fischer, John Grainger, Susanne Holzhauer, Koon-Hung Luke, Sandrine Meunier, Margareth Ozelo, Ling Tang, Sandra V. Antunes, Paula Villaça, Cindy Wakefield, Gilian Wharfe, Runhui Wu, and Nancy L. Young
- 405 Developing a new scoring scheme for the Hemophilia Joint Health Score 2.1
Tiago Ribeiro, Audrey Abad, and Brian M. Feldman
- 412 Crystal structure, epitope, and functional impact of an antibody against a superactive FVIIa provide insights into allosteric mechanism
Longguang Jiang, Xie Xie, Jinyu Li, Egon Persson, and Mingdong Huang

Case Reports

- 420 Successful use of emicizumab in a patient with refractory acquired hemophilia A and acute coronary syndrome requiring percutaneous coronary intervention
Kathryn E. Dane, John P. Lindsley, Michael B. Streiff, Alison R. Moliterno, Mian K. Khalid, and Satish Shanbhag
- 424 Successful management of refractory bleeding in liver failure with tranexamic acid: Case report and literature review
Saranya Kodali, Chris E. Holmes, Eswar Tipirneni, Christina R. Cahill, Andrew J. Goodwin, and Mary Cushman

Commentary

Short and sweet science
Christopher M. Ward and Robert K. Andrews

Illustrated Review

Illustrated State-of-the-Art capsules of the ISTH 2019 Congress in Melbourne, Australia
Christopher M. Ward and Robert K. Andrews

Forum

Asymptomatic “breakthrough” thrombosis and anticoagulant “failure”: Keep calm and carry on
Sven R. Olson, Joseph J. Shatzel, and Thomas G. DeLoughery

Original Articles: Thrombosis

The role of ADAMTS-13 and von Willebrand factor in cancer patients: Results from the Vienna Cancer and Thrombosis Study
Hanna L. Obermeier, Julia Riedl, Cihan Ay, Silvia Koder, Peter Quehenberger, Rupert Bartsch, Alexandra Kaider, Christoph C. Zielinski, and Ingrid Pabinger

Influence of anticardiolipin and anti- $\beta 2$ glycoprotein I antibody cutoff values on antiphospholipid syndrome classification
Laura Vanoverschelde, Hilde Kelchtermans, Jacek Musial, Bas de Laat, and Katrien M. J. Devreese

Original Articles: Haemostasis

Using pharmacokinetics for tailoring prophylaxis in people with hemophilia switching between clotting factor products: A scoping review
Jacky K. Yu, Alfonso Iorio, and Andrea N. Edginton, on behalf of the WAPPS co-investigators

Fixed doses of N8-GP prophylaxis maintain moderate-to-mild factor VIII levels in the majority of patients with severe hemophilia A
Pratima Chowdary, Manuel Carcao, Pål A. Holme, Victor Jimenez-Yuste, Steven R. Lentz, Judi Møss, Lone H. Poulsen, Chunduo Shen, Alberto Tosetto, Allison Wheeler, and Elena Santagostino
